COMMISSION ON SUSTAINABLE DEVELOPMENT
Fifth session
7-25 April 1997

Global change and sustainable development: critical trends

Report of the Secretary-General

Corrigendum

1. Page 33, figure III.7 "Primary global primary energy mix 1990-2050"

The headings CDS and WEC/IIASA should be reversed.

2. Page 59, figure V.3 "Water withdrawal as a percentage of water availability 1995"

(a) The indication for Kuwait should be over 40% rather than under 10% as shown in the figure;

(b) The indication for Rwanda should be 10-20% rather than under 10%;

(c) The indication for Tajikistan should be 10-20% rather than under 10%;

(d) The indication for the United States of America should be 10-20% rather than 20-30%.

3. Page 66, figure V.6 "Water withdrawal as a percentage of water availability 2025"

(a) The indication for Armenia should be 20-40% rather than under 10% as shown in the figure;

(b) The indication for the Dominican Republic should be 20-40% rather than 10-20%;

(c) The indication for Kenya should be 10-20% rather than under 10%;

(d) The indication for Rwanda should be 20-40% rather than 10%.

4. Page 74, figure VI.2 "People living in absolute poverty 1987-1993"

Data relating to Latin America and the Caribbean and for Middle East and North Africa should be transposed.
